Abstract (en)  
[origin: WO2005102944A1] The invention relates to a tubular membrane made of an additional-cross linkable silicone rubber composition for ventilating sewage plants. The invention also relates to compositions which are suitable for the production of said tubular membrane, methods for the production of the tubular membrane, in addition to the use of the composition and/or the tubular membrane according to the invention as tubular membranes for ventilating sewage plants.
