Abstract (en)

A display rack comprises at least one vertical post (2) and a base (4) adapted to be mounted to the vertical post (2). A locking element (6) is adapted to have a first position, in which openings (36) in a first vertical wall (34) of the vertical post (2) are unblocked such that each hook (14) of the base (4) may be inserted through the corresponding opening (36) until an end (12) of the base (4) abuts a first side (92) of the first vertical wall (34). The locking element (6) is further adapted to have a second position in which a shoulder (62) on the locking element (6) extends into a recess (30) of the hook (14) at a second side (94) of said first vertical wall (34) and locks the hook (14) in the inserted position.
