Abstract (en)

[origin: WO2005092147A1] The invention relates to a work station consisting of: a worktop (1); means for supporting accessories (2), such as flat computer screens; and at least two consoles (3) which are mounted to at least one essentially-cylindrical vertical base (4). According to the invention, at least one of the consoles (3) can rotate around the base (4), while the worktop is independent of said consoles and cannot rotate in relation to same.
