Abstract (en)

[origin: WO2005084684A1] A mixture of one or several substances from group A) lubricin, proteoglycan 4 (PRG4) and phospholipid (SAPL); with one or several substances from group B) hyaluronic acid, glycosaminoglycan and derivatives of said substances; dissolved in a solvent, used for the production of an agent for treating defective or degenerated cartilage in vivo. Said mixture can also be used to produce natural cartilage replacement in vitro.
