Abstract (en)

[origin: WO2005100732A1] A conductor casing device (1) for establishing and lining a wellbore in unconsolidated sediments (51), the conductor casing (1) being arranged to be driven into and to displace the unconsolidated sediments (51) by axially directed impulses against an internal abutment (19) in the lower portion (15) of the conductor casing (1), where the conductor casing (1) is telescopic. The invention also comprises a method of driving a telescopic conductor casing (1) into unconsolidated sediments (51).
