Abstract (en)

[origin: WO2005106365A1] The invention concerns a single packaging device for transporting, cooling and displaying at least one bottle and its/their content, consisting of a parallelepiped (1) divided inside into at least two boxes (3) delimited by at least one inner open work partition (4) capable of being associated with a system (9) for being fastened (10) to a table. The inventive device is particularly designed for serving cool drinks.
