Abstract (en)
A trailer for two-wheeled vehicles composed of a rolling frame (1) equipped with a trailer hitch (2) for connection to and pulling by a tractor vehicle, characterised in that the frame is equipped with three horizontal platforms (3a,3b,3c) positioned transversally in respect of the direction of movement of the trailer, the central platform being bound to the frame and the outer platforms being articulated by means of hinges (4) to the central platform starting at their contiguous longitudinal ends to facilitate folding. The platforms have means for fastening vehicles with two or more wheels and means for distributing and balancing the vehicles on the platform.
