Abstract (en)
[origin: WO2005092649A1] The invention relates to a transverse member (1; 11) having an integrated air duct, particularly for a motor vehicle. The transverse member (1; 11) has openings (6) for introducing air and/or has openings (4) for discharging air, and an air guiding element (8; 18) is mounted inside the transverse member (1; 11) via at least one of the openings (4 or 6) while projecting at least partially into the transverse member (1; 11).
