Abstract (en)  
[origin: WO2005108670A2] The present invention relates to textile benefit compositions comprising a cellulosic based polymer component; a material selected from the group consisting of a dispersible polyolefin, a chlorine inhibitor, a dye fixative and mixtures thereof; a cross-linking agent; a carrier and an optional wetting agent or, alternatively, a chlorine inhibitor; a material selected from the group consisting of a dispersible polyolefin, a cellulosic based polymer component, a dye fixative and mixtures thereof; a cross-linking agent; a carrier and an optional wetting agent. The present invention also relates to processes for making and using the aforementioned compositions and textiles treated with such compositions.
