Abstract (en)

Fixing device for slotted skirting boards designed on the one hand to allow the easy and comfortable installation of a skirting board (1) and on the other to form an effective means for housing cables and other similar conduits, which mainly has a longitudinal slot (2) in the rear face of the skirting board (1) which faces the wall (8), and with a rectangular piece (4), that is attached to the wall (8) by bolting through a hole (7), whose profile has a sharp termination (5) on its upper part to support the longitudinal slot (2) and a number of channels (6), and which on its lower part converges with the base of the skirting board (1) to form a housing (3) for cable conduits.
