Abstract (en)

[origin: CN1691176A] The invention provides a CD play method, which comprises steps: obtain description information of content waiting for playing; generate a play document system according to the information; then, play the content according to document system; the content waiting for playing comprises CD content and enhancement content. It also provides a CD play device, which comprises an obtaining device for description information, a generation device used to generate a play document system and a play engine used to access and play content with single application program interface. By this invention, both the entire design of play device and preparation difficulty decrease greatly.
