Abstract (en)

Device for fixing film strips (15) to tunnel walls comprises a support structure (6) and a moving device (4) for receiving a film roll (5) and pivoting on the support structure. An independent claim is also included for a method for fixing film strips to tunnel walls using the above device. Preferred Features: The moving device has an arm (12) which pivots on the support structure about an axis which runs parallel to the longitudinal axis of a film roll supply. The arm is a telescopic arm.
