Abstract (en)
[origin: WO2005114600A1] A method and apparatus for electronically controlling gaming machines such as poker, blackjack, slots, keno, and/or bingo. Customer information such as denomination input, maximum coin input, maximum number of coins won, pay tables, pay lines, and the like may be changed electronically with an electronic ink display. The gaming machine may be updated electronically without shutting the game down and losing income or incurring additional costs from manually replacing - static display inserts on the machine.
