Abstract (en)
the packing (01) consists of at least two layers (02, 03). The packing is basically rectangular, and has at least one bag-shaped chamber (04). Its side edges form a receiving region (05) and bottom region (06). The layers of packing material are connected so as to form an L-shaped contact region (07) running in two directions from the base of the chamber to the side edges of the receiving region.
