Abstract (en)

[origin: WO2006003272A1] The invention concerns a mobile assembly for fire fighting and fire-extinguishing training comprising a first unit (1) whereof one first longitudinal section is configured as a theoretical training room and a second longitudinal section (13) is equipped with means for accessing (27, 29, 33) a platform located on the roof of the unit serving as evacuation training room. A second unit independent of the first unit houses a fire room containing at least a flammable medium designed to receive lighted materials.
