Abstract (en)

[origin: WO2005090199A2] The invention relates to sterilisable packages for food cooked product(s) conservable at an ambient temperature for several years comprising sterilisable containers (3, 5) which are connected to each other in a separable manner, heat-formed and consisting of at least one polyolefine layer and an oxygen-barrier layer (EVOH), sterilisable caps comprising at least one oxygen-barrier layer, a flange (20) connecting the containers to each other and having a mechanically weakened section (40) which makes it possible to separate the containers from each other by breaking.
