Abstract (en)

A method of decorating by sublimation comprises the steps of setting a transfer support (1) carrying a decoration (2) to be transferred, covering an object (3) to be decorated with the transfer support (1), creating the vacuum between the object (3) to be decorated and the transfer support (1) to make the transfer support. (1) adhere to the object (3) to be decorated and heating the object (3) to be decorated covered with the transfer support (1) to cause sublimation of the decoration (2) and transfer of same to the object (3) to be decorated. The method further comprises the step of creating a plurality of grooves (4) on the transfer support (1) during the step of setting the transfer support (1) itself, to define a plurality of air outflow channels.
