Abstract (en)

Pressing device (12) comprises an exchangeable frame (40) detachably connected to a base support and having a holder (42) for pressure cylinder units (20) which are detachably held in the holder. Independent claims are also included for the following: (1) Building device with the pressing device; and (2) Method for adapting a pressing device. Preferred Features: A guiding unit is arranged on the base support to interact with a mounting rail.
