Abstract (en)

The device has a holding-down device (10) arranged for pressing sheets on a sheet support. The device (10) is movable between a raised initial position and press position in the direction of the sheet support. The device (10) is loaded on a force intensifying lever (17) in the direction of the press position, and is hand operable such that the exercised force is strengthened and transferred to the device (10).
