Abstract (en)

The boxboard has two carton wedges (20) each comprising one part with a rectangular base integrated with a holding panel. The panel is integrated with panels having tabs (15, 16) by which an article e.g. roller blind (100), is fixed to the wedges. The holding panel is extended by rectangular panels forming side walls and bottoms. The holding panel forms an accessory housing (28), by another part formed by assembling tabs and openings in which the assembling tabs are inserted. The latter part is connected to the former part by studs.
