Abstract (en)  
[origin: EP1755200A2] Electrical plug housing and electrical socket housing is made of molded, e.g. injection molded material. Electrical plug and electrical socket housing has electrically conductive inner conductor (2) and electrically conductive outer conductor (3). An insulator (4) intermittently arranged within the range between inner conductor and the outer conductor from each other. The other components are fastened to a chassis wall (6) of housing (5).
