Abstract (en)

[origin: WO2006012148A1] An improved multi level game table (100) and method of playing three dimensional games such as a pool where the improvements (136) include upward level change of game piece without the use of moving parts. Further improvements directed to the playing surface and game piece control are also taught, so that any game play may be modified and the skill of player challenged and game play enhanced.
