Abstract (en)

[origin: EP1762501A2] A flexible pouch (2) having a top edge is fastened to a dispenser endpiece (3) made of plastics material and comprising a tubular body and two opposite fins (20). A projection (24) is included over a fraction of the length of each fin, forming an abutment for the top edge of the pouch. The tubular body includes an axis and defines an inlet orifice (14) and a dispenser orifice (11). The fins are situated on either side of the tubular body, and each fin includes a tapering portion having two downwardly converging opposite faces. An independent claim is included for a dispenser endpiece for packaging and dispenser device.
