Abstract (en)

[origin: EP1764018A2] The system includes a u-shaped beam profile (10). The plate (A) to be attached is held by an adjustable profile (11) between one limb (10.1) of the beam profile and a clip (12) inserted between the plate and the other limb (10.2) of the beam profile. The plate can be fixed by a fixing screw (14) which extends through the beam profile and the clip, in an adjustment range defined by the clip and beam profile.
