Abstract (en)

[origin: EP1764219A2] The cleaning device (10) for printing plates (44) has a washing chamber (16) to take at least one printing plate, and a spray system (26) inside it to spray cleaning fluid (18) over the plate. There is also a movement system (52) to create relative movement between the printing plate and the spray system in the washing chamber.
