Abstract (en)

[origin: EP1764875A1] The plug connector (1) has a plug holder (7) for inserting an electrically conducting contact pin (9) with contact lamellas (11) biased towards each other and extending from a base opposite to the plug-in direction of the contact pin so as to enclose the top and bottom of the plug holder in an initial state in which they are ready for insertion and a spreading element (13).
