Abstract (en)

[origin: EP1770051A2] The cable guide has a cable drum having a cable groove. The cable guide has two base segments expanding into a ring. The base segments (2a, 2b) are guided in the cable groove by an engaging element (10) and supported against the cable winch by a torque support (9). The elements for guiding and holding down a cable are arranged on the base segments. The torque support and the add-on element for guiding and holding down the are variably arranged on the base segments. The base segments are identical except for their engaging elements.
