Abstract (en)

The knob has a support (3) with a plate (7) having radial extension for off-centered reception of a wiper (4), a sleeve (13), and a housing. The sleeve and the housing have an axial extension cooperating with a finger (14) and another sleeve of another support. The sleeves, finger and housing have undercuts, pins and inner ribs for coaxial connection in rotation with one another. The sleeves, finger, housing are guided in rotation on a body (16).
