Abstract (en)

[origin: EP1775082A1] The puncher has a receiving body with a base (1), and a fastening unit (2) that is connected with the body. Punching tools (4) are fixed at different positions, where the tools have a punching mold (6) and a punching die (5). The die is partially displaced through the mold by the fastening unit. The punching tools have an adjustable key (16), where the fixing of the punching tools at the receiving body is detached by the pressure of the key. The tools have a frame (17) that includes a counter holder unit (24) for the stabilization during fastening the key.
