Abstract (en)
[origin: EP1775479A2] The pneumatic unit has several modules, of which one (10) supplies the electricity, and has a compressed air channel (27) running through it. A supply line (15) from this module supplies electricity to those other modules which require it. A pneumatic motor (29) connected to a generator (30) is driven by compressed air from the compressed air channel.
