Abstract (en)

the trimming strip (1), supplied as a reel, has a base section (3) and spaced webs (4, 5). The base section comprises soft plastics whilst the web sections are made from hard plastics. The strip is rolled up by turning the web sections outwards. The web sections can have an L or T shaped cross-section. A self-adhesive layer (2) is formed on the side of the base section remote from the web sections.
