Abstract (en)

A method for assembling a gas turbine engine (10) includes coupling a low-pressure turbine (14) to a core turbine engine (12), and coupling a counter-rotating fan assembly (16) including a first fan assembly (50) and a second fan assembly (52) to the low-pressure turbine such that the first fan assembly rotates in a first direction (80) and the second fan assembly rotates in an opposite second direction (82).
