Abstract (en)
[origin: WO2006002756A2] The invention relates to a security element for security papers, valuable documents and the like with a thin-layer element (22) with a color shift tilt effect, comprising a reflecting layer (26), an absorbing layer (28) and a spacer layer (24), which is placed between the reflecting layer (26) and the absorbing layer (28). According to the invention, the spacer layer is formed by an ultra-thin film (24) with a thickness of less than 1.0 µm.
