Abstract (en)

[origin: WO2006010852A1] The invention concerns a starter comprising a stop (35), an electric motor (11), mechanically coupled to an output shaft (28), a drive assembly (26) mounted on the output shaft (28) and including a driver (33), a part (45) for coupling the pinion (32) to the driver (33) via a mechanical freewheel connection (34) configured in accordance with a friction clutch, and a priming spring (R1) mounted between the stop (35) and the pinion (32).
