Abstract (en)
[origin: EP1780460A1] Device has a metering container (7) and evaporator (9,10) attached to tank system whereby tank system is connected to metering container over valve (1) and inlet pipe (6). Tank system is connected with evaporator over connecting pipe (8) consisting of valve (2) whereby evaporator is branched one side over return piping (11) with valve (4). Supply piping (6) is connected to metering container and on the other side branched to bleed line (13) with valve (3).
