Abstract (en)

[origin: WO2006010669A1] The invention relates to a housing device for a machine tool (10) with a tool holder (17), in particular, on a hand-held machine tool, for housing exchangeable tools. According to the invention, the tool holder (17) forms a detachable sliding seat (18) with a drive tube (16). The invention further relates to a tool holder (17).
