Abstract (en)

[origin: FR2874689A1] The device has a universal serial bus (USB) port (12) simultaneously controlling a control unit (2) by a personal computer (20), electrically supplying the unit (2) and transferring measurement data that comes from a measurement module (10) towards the computer. The communication port assures a USB link (14) with a USB port (18) of the personal computer.
