Abstract (en)

[origin: EP1782917A1] The support (1) has first contact surface (11) and second contact surfaces (21) run to one another in an angle, so that by turning the first jockey pulley based on the second jockey pulley (20) the support body can be fixed between the contact surfaces. The second jockey pulley has at least a groove (22) for a holding element (34). Independent claims are included for the following: (1) Grinding tool; and (2) Support body.
