Abstract (en)
[origin: EP1783078A2] A log or single small roll of paper with improved clamping of the final or end strip, in which a final or end strip (13) is bound to a side portion of a body of a log or single roll (11) of paper for domestic use, toilet paper and similar products through glue or similar adhesive, in which the final or end strip (13) is bound to the body of a log or single small roll (11) through localised bonding elements or zones (14) of various size and measurement. The localised bonding elements or zones (14) comprise at least one section, drawing, logo, mark or the like (15, 115) and are realised through the deposition of glue or similar adhesive or else through the deformation of said paper adapted to receive glue or similar adhesive.
