Abstract (en)

[origin: EP1783282A1] The system has sealing sheets (1a, 1b) and round cord (15) on butyl base, where the sealing sheets can be fixed on a building exterior and are connected with one another at its edges. The additional sealing unit is provided for assembly on overlaps of sealing sheets. The sheets comprise polyethylene foils, which have a thickness of 100 micrometer and a butyl coating having a thickness of 1 millimeter. Independent claims are also included for the following: (1) a sealing unit for water and pressure seal connection of sealing sheets for a pressure water resistant building sealing system (2) an assembly process for creating a pressure water resistant building sealing.
