Abstract (en)

[origin: WO2007018482A2] The present invention features polypeptides comprising an amino acid sequence structurally related to SEQ ID NO: 1 and uses of such polypeptides. SEQ ID NO: 1 is a truncated derivative of a full-length S. aureus polypeptide. The full-length naturally occurring polypeptide is referred to herein as full-length "ORF2331". A His-tagged derivative of SEQ ID NO: 1 was found to produce a protective immune response against S. aureus.
