Abstract (en)
[origin: WO2006027258A1] The invention relates to a composition containing a) an organomodified silicone, b) an optional C₃-C₂₂/SUB> alcohol, c) an optional cationic surfactant, d) an optional volatile silicone oil, e) at least 30 percent by weight of ethanol, the percentage being in relation to the total weight of the composition, and f) other optional additives that are different from components a to e, the total quantity of components a to f amounting to 100 percent by weight. The invention also relates to a method for producing a composition, the composition obtained by means of said method, a method for the treatment of hair, the use of a composition for treating hair, and the use of a composition for producing a hair treatment agent.
