Abstract (en)

The furniture piece has two plates (40, 42) that are rotatable relative to each other. A supporting device has two supports (30, 32), where each of the two plates is fastened respectively at the two supports. The supporting device is arranged translatable movably relative to a stationary base (10), where relative position of the supports is force-coupled together with the relative position of the supporting device to the base.
