Abstract (en)

[origin: EP1790497A2] The assembly has elements of different shapes such as square shape element (1), isosceles triangular shape element and four rhombus shape elements, where the elements have sides (C) of same outer length (L) irrespective of the shapes. The rhombus shape elements form adjacent angles equal to 30 to 150 degrees, 45 to 135 degrees, 60 to 120 degrees and 75 to 105 degrees, respectively. The triangle shape element includes longitudinal grooves (7) that are arranged on the sides of the elements to receive a complementary shape attachment (8) arranged on the sides of another set of elements.
