Abstract (en)

[origin: WO2007001361A2] The present invention features polypeptides comprising an amino acid sequence structurally related to SEQ ID NO: 1 and uses of such polypeptides. SEQ ID NO: 1 is a truncated derivative of a full length S. aureus polypeptide. The full-length polypeptide is based on full-length SA0024. A His-tagged derivative of SEQ ID NO: 1 was found to produce a protective immune response against S. aureus.
