Abstract (en)

[origin: EP1637941A1] The timepiece has an additional minute hand (16) driven by a true time display gear train that drives a mobile carrying an additional hour hand (14) which indicates a true hour. The gear train drives the mobile through an additional equation cannon-pinion fixed on an hour wheel whose end is fixed with the hand (16). The cannon-pinion transmits true hour information to a true hour wheel.
