Abstract (en)  
The invention relates to a packaging (1), for instance for a food product, comprising a receptacle (10) with open upper end and a cover (20) connecting thereto, which cover can be fixed to the receptacle by means of engaging members. The packaging is further provided with release means for removing the cover from the receptacle, wherein the release means comprise a press-in body which is arranged on the peripheral edge of the cover and/or the receptacle and which, when pressed in, can push away a first tongue (14) arranged on the peripheral edge of the receptacle and/or cover.
