Abstract (en)  
[origin: WO2006030306A2] In accordance with the present invention, it has been discovered that pindolol provides a highly effective treatment for PMS and/or PMDD. As such, the present invention generally relates to methods and compositions for treating and/or preventing PMS, or symptoms associated therewith including premenstrual tension or premenstrual dysphoria. The methods and compositions of the invention also involves the use of pindolol, a known beta adrenergic blocker, in combination with known contraceptives.
