Abstract (en)

Driving system receiver (100), has a mobile drive unit (102), and the driving system structure (10) can be connected to mobile driving unit, in order to move the driving system structure. A first receiving unit (104,106) and a second receiving unit are formed for receiving the driving system structure. Independent claims are also included for the following: (1) Intermediate product for the assembly of a driving system; (2) Assembly location for manufacturing, installing and assembling driving systems; and (3) Method for assembling driving systems.
