Abstract (en)

[origin: EP1795642A1] A control strip for a domestic electrical appliance comprises at least one fixed means of assembly (3) and a movable element (4) that can rotate around a rotation axis connected to the fixed part. The fixed part comprises at least one means of guidance and at least one of locking in conjunction with the movable element and the movable element comprises a lower side (8) closed between the front face (21) of the strip and a front face (20) of the movable element.
